In the Claims:

Please add the following claim:

*Globe  
B/S*

--58. A gravity-sensitive latch comprising:  
a housing;  
a button or handle secured to said housing;  
a pendulum operatively in communication with said button or handle, said pendulum pivoting between a latched position and an unlatched position; and  
a pawl pivotally secured to said housing, said pawl being dimensioned and configured to engage a keeper, said pawl pivoting between a latched position and an unlatched position.--
